#### 1. NATURE OF AND CONTINUANCE OF OPERATIONS

Ely Gold & Minerals Inc. (the "Company" or "Ely") was incorporated under the *Business Corporations Act* (Alberta) on May 10, 1996. The Company was continued into British Columbia in 2002 where it is now domiciled and governed by the *Business Corporations Act* (British Columbia). Since 2004 its principal business activity has been the acquisition, exploration and development of exploration and evaluation assets. The Company is listed on the TSX Venture Exchange ("TSX-V"), having the symbol ELY.

The Company's registered office is Suite 459 – 409 Granville Street, Vancouver, British Columbia, Canada, V6C 1T2.

On August 25, 2015, the Company completed the sale of its investment in Mt. Hamilton LLC ("MH-LLC") (a Colorado limited liability company) and received cash proceeds of \$7,977,600 (US\$6,000,000) and returned 15,732,274 of the Company's common shares to the treasury. Refer to Note 8 for a description of the MH-LLC disposal transaction.

The recovery of the amounts comprising exploration and evaluation assets is dependent upon the confirmation of economically recoverable reserves, the ability of the Company to obtain necessary financing to successfully complete their exploration and development, and upon future profitable production.

The Company incurred a net loss of \$503,606 (2015 - \$417,470) for the three months ended March 31, 2016. As at March 31, 2016, the Company had an accumulated deficit \$20,306,528 (December 31, 2015 - \$19,880,202) with working capital of \$4,684,491 (December 31, 2015 - \$5,177,123).

These condensed interim consolidated financial statements have been prepared by management on a going concern basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred ongoing losses. A number of alternatives, including, but not limited to, selling an interest in one or more of its properties or completing a financing, are being evaluated with the objective of funding ongoing activities and obtaining additional working capital. The continuing operations of the Company are dependent upon its ability to continue to raise adequate financing and to commence profitable operations in the future and repay its liabilities arising from normal business operations as they become due.

These condensed interim consolidated financial statements were approved by the Board of Directors for issue on May 30, 2016.

#### 2. BASIS OF PREPARATION

# **Statement of Compliance**

These condensed interim consolidated financial statements have been prepared by management in accordance with IAS 34 - Interim Financial Reporting ("IAS 34") using accounting principles consistent with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB").

The significant accounting policies applied in preparing these condensed interim consolidated financial statements are consistent with the accounting policies as disclosed in the Company's audited consolidated financial statements for the year ended December 31, 2015.

These condensed interim consolidated financial statements do not include all of the required disclosures for annual consolidated financial statements. Accordingly, they should be read in conjunction with the Company's consolidated financial statements for the year ended December 31, 2015 and the notes thereto.

FOR THE THREE MONTHS ENDED MARCH 31, 2016
(Unaudited)

#### 2. BASIS OF PREPARATION (cont'd...)

#### Basis of consolidation and presentation

The condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as available-for-sale and derivative financial liabilities, which are stated at their fair values. All dollar amounts presented are in Canadian dollars, the Company's functional currency, unless otherwise specified.

These condensed interim consolidated financial statements incorporate the financial statements of the Company and its controlled subsidiaries. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The condensed interim consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, DHI Minerals Ltd. ("DHI") (a Canadian corporation), DHI Minerals (US) Ltd. ("DHI US") (a Nevada corporation), Voyageur Gold Inc. ("Voyageur") (a Canadian corporation) and Nevada Inc. ("Nevada Select"), (a Nevada corporation incorporated on February 26, 2016). The Company's 20% equity interest in MH-LLC was owned through DHI US. All significant intercompany transactions and balances have been eliminated. On August 25, 2015, the Company disposed of its interest in MH-LLC and ceased to equity account its investment in MH-LLC at that date. Refer to Note 8.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used in line with those used by the Company.

# Use of estimates and judgments

The preparation of these condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the condensed interim consolidated financial statements and the reported revenues and expenses during the period. Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates.

# Critical accounting estimates

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the financial position reporting date, which could result in a material adjustment to the carrying amounts of assets and liabilities, in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

#### Recovery of deferred tax assets

The Company estimates the expected manner and timing of the realization or settlement of the carrying value of its assets and liabilities and applies the tax rates that are enacted or substantively enacted on the estimated dates of realization or settlement.

#### Share-based payments

The fair value of share-based payments is subject to the Black-Scholes option pricing model that incorporates market data and involves uncertainty in estimates used by management in certain assumptions. As the Black-Scholes option pricing model requires the input of highly subjective assumptions, including the volatility of share prices and expected forfeiture rate, changes in subjective input assumptions can materially affect the fair value estimate.

#### 2. BASIS OF PREPARATION (cont'd...)

# Use of estimates and judgments (cont'd...)

Critical accounting estimates (cont'd...)

Impairment of mineral properties

Assets or cash-generating units are evaluated at each reporting date to determine whether there are any indications of impairment. The Company considers both internal and external sources of information when making the assessment of whether there are indications of impairment for the Company's mineral properties.

In respect of costs incurred for its mineral properties, management has determined that exploratory drilling, evaluation and related costs incurred, which have been capitalized, continue to be appropriately recorded on the consolidated statement of financial position at its carrying value. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefit, including geologic and metallurgic information, economic assessment/studies, accessible facilities and existing permits.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

# Changes in accounting standards not yet adopted

The Company has reviewed new and revised accounting pronouncements that have been issued, but are not yet effective. The Company has not early-adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its consolidated financial statements.

#### 1) IFRS 9 Financial Instruments (2014)

This is a finalized version of IFRS 9, which contains accounting requirements for financial instruments, replacing IAS 39 *Financial Instruments: Recognition and Measurement*. The standard contains requirements in the following areas:

- Classification and measurement. Financial assets are classified by reference to the business model within
  which they are held and their contractual cash flow characteristics. The 2014 version of IFRS 9 introduces a
  "fair value through other comprehensive income" category for certain debt instruments. Financial liabilities
  are classified in a similar manner to under IAS 39; however, there are differences in the requirements
  applying to the measurement of an entity's own credit risk.
- Impairment. The 2014 version of IFRS 9 introduces an "expected credit loss" model for the measurement of the impairment of financial assets, so it is no longer necessary for a credit event to have occurred before a credit loss is recognized.
- Hedge accounting. Introduces a new hedge accounting model that is designed to be more closely aligned
  with how entities undertake risk management activities when hedging financial and non-financial risk
  exposures.
- Derecognition. The requirements for the de-recognition of financial assets and liabilities are carried forward from IAS 39.

Applicable to the Company's annual period beginning on January 1, 2018.

#### 3. FINANCIAL INSTRUMENTS

The Company classifies its cash and cash equivalents as FVTPL; marketable securities, as available-for-sale; and accounts payable and accrued liabilities and deferred compensation, as other financial liabilities.

The carrying values of cash and cash equivalents, and marketable securities have been based on quoted market prices, a Level 1 measurement according to the fair value hierarchy. The carrying value of deferred compensation is based on inputs, other than quoted prices, for which there is observable market data; a Level 2 measurement according to the fair value hierarchy. The carrying value of accounts payable and accrued liabilities approximates fair value, due to the short term to maturity of these financial instruments.

The Company's risk exposure and the impact on the Company's financial instruments are summarized below.

#### (a) Credit risk

Credit risk refers to the potential that a counterparty to a financial instrument will fail to discharge its contractual obligations. The Company manages credit risk, in respect of cash and cash equivalents, by placing its cash balances at a major Canadian financial institution.

Concentration of credit risk exists with respect to the Company's cash and cash equivalents, as all amounts are held at major Canadian financial institutions, and with respect to other receivables, as it is due from only one party. The Company's concentration of credit risk and maximum exposure thereto is as follows:

	March 31, 2016	December 31, 2015
Cash and cash equivalents	\$ 4,583,585	\$ 4,998,718

# (b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. At March 31, 2016, the Company has cash and cash equivalents of \$4,583,585 (December 31, 2015 - \$4,998,718), current liabilities of \$98,358 (December 31, 2015 - \$38,009) and working capital of \$4,684,491 (December 31, 2015 - \$5,177,123).

Accounts payable and accrued liabilities of \$98,358 are due in the second quarter of fiscal 2016.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2016
(Unaudited)

#### 4. FINANCIAL INSTRUMENTS (cont'd...)

#### (c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

#### (i) Interest rate risk

Interest rate risk consists of three components:

- (a) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk.
- (b) To the extent that changes in prevailing market rates differ from the interest rate in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.
- (c) Fluctuations in the interest rates impact the value of cash equivalents. As at March 31, 2016, the impact of interest rates on the Company is not deemed significant. The Company's other liabilities are not exposed to interest rate risk, as they are carried at amortized cost.

# (ii) Foreign currency risk

The Company incurs expenditures in Canada and the US. Foreign currency risk arises because the amount of the US dollar cash, intercompany balances and payables will vary in Canadian dollar terms due to changes in exchange rates.

As at March 31, 2016, the Company has not hedged its exposure to currency fluctuations.

At March 31, 2016 and December 31, 2015, the Company is exposed to currency risk through the following assets and liabilities denominated in US dollars:

		March 31, 2016		December 31, 2015
Cash and cash equivalents Accounts payable and accrued liabilities	US\$	3,340,811 (15,645)	US\$	3,351,757 (2,218)
Net	US\$	3,325,166	US\$	3,349,539
Canadian dollar equivalent		\$ 4,313,073		\$ 4,635,762

Based on the above net exposures as at March 31, 2016, a 5% (December 31, 2015 - 5%) change in the Canadian/US exchange rate would impact the Company's gain (loss) and comprehensive gain (loss) by approximately \$215,000 (December 31, 2015 - \$232,000).

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS (Expressed in Canadian Dollars)
FOR THE THREE MONTHS ENDED MARCH 31, 2016
(Unaudited)

#### 4. FINANCIAL INSTRUMENTS (cont'd...)

# (c) Market risk (cont'd...)

# (iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to significant price risk on its marketable securities.

#### (iv) Fair value hierarchy

The following tables summarize the Company's financial instruments under the fair value hierarchy, as at March 31, 2016 and December 31, 2015:

March 31, 2016	Level 1	Level 2	Level 3	Total
FVTPL				
Cash and cash equivalents	\$4,583,585	\$ -	\$ -	\$4,583,585
Available-for-sale				
Marketable securities	\$ 76,385	\$ -	\$ -	\$ 76,385

December 31, 2015	Level 1	Level 2	Level 3	Total
FVTPL				
Cash and cash equivalents	\$4,998,718	\$ -	\$ -	\$ 4,998,718
Available-for-sale Marketable securities	\$ 81,159	\$ -	\$ -	\$ 81,159

#### 5. CAPITAL MANAGEMENT

The Company is an exploration stage company and this involves a high degree of risk. The Company has not determined whether its exploration and evaluation assets contain economically recoverable reserves of ore and currently has not earned any revenues from its exploration and evaluation assets, and therefore, does not generate cash flows from operations. The Company's primary source of funds comes from the issuance of share capital and debt. The Company does not use other sources of financing that require fixed payments of interest and principal due to lack of cash flow from current operations and is not subject to any externally imposed capital requirements.

The Company defines its capital as equity (deficiency). Capital requirements are driven by the Company's exploration activities on its exploration and evaluation assets. To effectively manage the Company's capital requirements, the Company has a planning and budgeting process in place to ensure that adequate funds are available to meet its strategic goals. The Company monitors actual expenses to budget on all exploration projects and overhead to manage costs, commitments and exploration activities.

The Company has in the past invested its capital in liquid investments to obtain adequate returns. The investment decision is based on cash management to ensure working capital is available to meet the Company's short-term obligations while maximizing liquidity and returns of unused capital.

There have been no changes to the Company's approach to capital management during the three months ended March 31, 2016.

#### 6. MARKETABLE SECURITIES

The Company's marketable securities comprise the following common shares. The fair value of the marketable securities has been determined directly by reference to published price quotations in an active market.

	March 31, 2016		December 31, 2015	
		Fair		Fair
	Cost	Value	Cost	Value
Solitario Royalty & Exploration Corp.				
119,352 (December 31, 2015 – 119,352) common shares	\$ 144,454 \$	76,385 \$	144,454 \$	81,159

During the three months ended March 31, 2016, the Company did not dispose of any shares of Solitario.

During the three months ended March 31, 2015, the Company disposed 52,042 common shares of Solitario for gross proceeds of \$55,245, realizing a loss of \$300. Fair values remained below average cost as at March 31, 2015.

During the year ended December 31, 2015, the Company disposed of 57,648 common shares of Solitario Royalty & Exploration Corp. ("Solitario") for gross proceeds of \$59,738, realizing a loss of \$1,790.

For year ended December 31, 2015, a loss of \$46,224 was recognized in net loss as a change in fair value of marketable securities.

#### 7. RECEIVABLES

The Company's receivables are as follows:

	March 31, 2016	December 31, 2015
Sales taxes receivable	\$ 30,026	\$ 26,387

#### 8. DISPOSAL OF INVESTMENT IN MT. HAMILTON LLC

On June 10, 2015, Ely, DHI US and Solitario (together, the "Sellers") entered into a definitive agreement (the "Agreement") to sell their combined interests in the Mt. Hamilton gold project ("Mt. Hamilton Project") to Waterton Nevada Splitter, LLC, a wholly owned subsidiary of Waterton Precious Metals Fund II Cayman, LP (collectively, "Waterton"), for total cash proceeds of US\$30 million (the "Transaction"). Solitario sold its 80% interest in MH-LLC, a limited liability company, which holds 100% of the Mt. Hamilton Project assets, and DHI US sold its 20% interest in MH-LLC. As a result, on closing Solitario received cash proceeds of US\$24 million and DHI US received cash proceeds of US\$6 million.

Concurrent with the signing of the Agreement, the Sellers entered into an arm's-length agreement (the "Consent Agreement") pursuant to which Solitario agreed to surrender 15,732,274 Ely shares to the Company for cancellation in exchange for:

(i) the Company and DHI US consenting to Solitario pledging its interest as security for any refinancing required by Solitario to any third party loans;

# 8. DISPOSAL OF INVESTMENT IN MT. HAMILTON LLC (cont'd...)

- (ii) Ely and DHI US waiving Solitario's obligation to fund the exercise of the Royalty Reduction Options and the Bonding Obligations; and
- (iii) DHI US repaying loans made to DHI US by Solitario pursuant to the MH-LLC Operating Agreement to fund DHI US' Joint Venture obligations to MH-LLC, amounting to \$240,887 (US\$191,150).

Maxit Capital LP ("Maxit") acted as financial advisor to the Company in connection with the Transaction. The Company paid Maxit a \$200,000 fee for Maxit's services, including delivery of the Fairness Opinion and services in connection with the completion of the Transaction.

On August 25, 2015, the Transaction closed and subsequently the Consent Agreement closed on August 27, 2015.

Upon closing of the Transaction the Company received cash proceeds of \$7,977,600 (US\$6,000,000). On closing of the Consent Agreement, the Company received from Solitario 15,732,274 of its common shares, which were returned to treasury.

For the year ended December 31, 2015, the Company recorded a gain of \$7,411,682 on the disposal of its investment in MH-LLC, calculated as follows:

	\$
Proceeds received	7,977,600
Carrying value of investment in MH-LLC as at August 25, 2015	(13,339)
Less equity share of previously unrecognized losses	(227,548)

# (a) Green Springs

On February 4, 2013, the Company acquired the Green Springs property in White Pine County, Nevada, for US\$300,000 (paid) and \$50,000 (paid) cash. The Green Springs property is subject to a 2% net smelter return ("NSR") royalty.

On July 7, 2014, the Company entered into an exploration and Option Agreement (the "Option Agreement") with Eurasian Minerals Inc. ("Eurasian") for the Cathedral Well gold project ("Cathedral Well Project"), which surrounds the Company's Green Springs claims. Pursuant to the Option Agreement, the Company can earn a 100% interest in the Cathedral Well Project by paying Eurasian a total of \$100,000 as follows:

- US\$25,000 upon signing (paid)
- US\$25,000 on the first anniversary (paid)
- US\$25,000 on the second anniversary
- US\$25,000 on the third anniversary.

Eurasian will retain a 2.5% NSR royalty, inclusive of an underlying 0.5% NSR royalty. In addition, after earning the 100% interest in the Cathedral Well Project, the Company will pay Eurasian annual advance royalties equal to 20 ounces of gold each year beginning in year four of the Option Agreement. After completion of a feasibility study of the Cathedral Well Project and/or the adjacent Company properties, the annual payment will increase to 35 ounces of gold each year thereafter until commencement of commercial production from either, or both, of the Cathedral Well Project and the adjacent Company properties. The Company may purchase 0.5% of the Eurasian NSR royalty by paying Eurasian 500 ounces of gold within 60 days after commencement of commercial production from either, or both, of the Cathedral Well Project and the adjacent Company properties. However, Eurasian will not retain any royalty on the Company's existing Green Springs project.

### (b) Cox Claims

On January 16, 2013, the Company acquired a mining lease and a purchase option on mining claims contiguous to the Green Springs property, known as the Cox Claims. The lease on the Cox Claims has a term of 10 years with escalating advance royalty payments and a purchase option to acquire 100% of the property. The advance royalty payments are payable as follows on each anniversary of the agreement:

- Upon signing, US\$7,500 (paid in 2013)
- January 16, 2014, US\$10,000 (paid in 2013)
- January 16, 2015, US\$12,000 (paid in 2014)
- January 16, 2016, US\$15,000 (paid in 2015)

#### 9. EXPLORATION AND EVALUATION ASSETS (cont'd...)

- (b) Cox Claims (cont'd...)
  - January 16, 2017, US\$15,000
  - January 16, 2018, US\$15,000
  - January 16, 2019, US\$20,000
  - January 16, 2020 and on each subsequent anniversary, US \$25,000.

The Company has the option to purchase the claims for an amount equal to US\$200,000 less the aggregate of the annual advance royalty payments made prior to the date of exercising the purchase option. Upon exercise of the purchase option, title to the Cox Claims will be taken subject to annual advance royalty payments of US\$25,000 until commencement of commercial production, after which a 2% NSR will be payable, after recovery of the aggregate advance royalties. The Company has the option to buy-down 1% of the NSR for US\$500,000.

In connection with the acquisition of the Cox Claims, the Company entered into an Agency Agreement with Urawest Energy LLC ("Urawest") to compensate Urawest for its involvement in the acquisition of the Cox Claims. Under the terms of the Agency Agreement, the Company will make total aggregate payments of US\$47,500 to Urawest, payable in annual instalments over the 10 year term of the Cox Claims lease:

- Upon signing, US\$2,500 (paid in 2013)
- January 16, 2014, US\$2,500 (paid in 2014)
- January 16, 2015, US\$2,500 (paid in 2015)
- January 16, 2016 (paid in 2016) to January 16, 2023, US\$5,000 each year.

In the event the Company exercises the purchase option to acquire 100% of the Cox Claims, any unpaid fees to Urawest as at the date of exercise shall be paid in full. Upon commencement of commercial production from the Cox Claims, the Company shall pay Urawest a 0.25% NSR.
