FORWARD LOOKING STATEMENTS

This presentation contains statements concerning Ely Gold Royalties' acquisition, development, and marketing of North American precious metal resource properties and the Company's intent to sell or option portfolio properties, while reserving any royalties. Such forward-looking statements or information are based on a number of assumptions, which may prove to be incorrect.

Although Ely Gold Royalties believes that the expectations reflected in such forward-looking statements or information are reasonable, undue reliance should not be placed on forward-looking statements because the Company can give no assurance that such expectations will prove to be correct. Forward-looking statements or information are based on current expectations, estimates and projections that involve a number of risks and uncertainties which could cause actual results to differ materially from those anticipated by the Company and described in the forward-looking statements or information. These risks and uncertainties include, but are not limited to, risks associated with geological, geometrical and geophysical interpretation and analysis, the ability of the Company to obtain financing, equipment, supplies and qualified personnel necessary to carry on exploration, exploitation or acquisition of properties and the general risks and uncertainties involved in mineral exploration and analysis.

The forward-looking statements or information contained in this presentation are made as of the date hereof and the Company undertakes no obligation to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws.

RODEO CREEK PROJECT PREMIER GOLD MINES

The Rodeo Creek Property is a 510 acre land package consisting of 31 unpatented claims strategically located adjoining Premier's 40% owned South Arturo Property in the heart of the Carlin Trend.

The Rodeo Creek Property is strategically located along the Bootstrap Reef/Margin, is underlain by the same rock units as the mines in the area, and is host to multiple faults and dike swarms, similar to the nearby gold mines.
